Hydraulic Group

Steel - medium duty - Heavy duty cylinders - NFPA mounts Rotary Actuators: Vane - Rack - Pinion

Directional, Flow & Pressure control valves, In-line and stacking, Industrial interchange, Transducer Feedback Panels

Pumps: Fixed & Variable - gear - vane - piston Motors: Low speed/high torque, high speed/low torque, gerotor & piston type

Hydraulic: Suction-return-medium to high pressure to 6000 psi - Filter carts & Fluid Analysis

Diaphragm - bladder - piston - auxillary gas bottles - shock suppressors

Vertical Units - Horizontal - Custom-designed - Redi-Pak - Oildyne Compact Units

Cylinders & Actuators

Hydraulic Valves

Pumps & Motors

Hydraulic Filtration

Hydraulic Accumulators

Power Units

Automation Group

Compact - round body - tie-rod - rodless - and guided

Valves: Directional - Flow - Serial addressable modules - stacking - FRL's: Modular - Standard - Hi-Precision - Lockouts

Grippers - slides: thrust, reach & base - High-Strength Aluminum Framing - Air Logic - Vacuum cups & Generators

Vane and Rack & Pinion up to 10,000 ft-lbs

Compressed air and gas filtration products - Process Filtration, cartridges - Desiccant Dryers - Line Dryers
